

VINISHA S V

JAVA REACT DEVELOPER

✉ vinishavijayakumar15@gmail.com ☎ +91 7907096120 🔗 LinkedIn 🌐 GitHub

PROFILE

A skilled **Java React Developer** with hands-on experience in developing full-stack web applications using **Java (Spring Boot)** for backend and **ReactJS** for frontend. Passionate about building scalable and maintainable applications, I stay up-to-date with the latest technologies and best practices. I have successfully developed a **Task Management Web Application**, and I am currently working on an ongoing project, **My Bus**, which focuses on Bus Booking system. Known for my ability to lead teams effectively, I bring strong collaboration and communication skills to any project.

SKILLS

- **Frontend**
React | React Native | Javascript | Tailwind CSS | Bootstrap | HTML | CSS
- **Backend**
Java | Spring | Springboot | Firebase | REST API | MVC Architecture
- **Database**
PostgreSQL | MySQL
- **Tools**
Git | GitHub | Postman | Figma | Notion | NPM

PROFESSIONAL EXPERIENCE

Intern | Eduzell Technologies Solutions LLP | Kalamassery, Kochi

11/2023 – present

As a Full-Stack Developer Intern at Eduzell Technologies Solutions LLP, I worked on two key projects. In the **Task Management System**, I utilized **ReactJS**, **Java Spring Boot**, and **PostgreSQL** to implement CRUD operations, database connections, and frontend design, improving development efficiency by **60%**. Currently, I am contributing to a **Bus Booking System**, enhancing scalability and system performance by **30%**. These experiences have strengthened my skills in full-stack development, database management, and delivering high-quality, maintainable solutions.

PROJECTS

Task Ease

Task management system

- Built a task management platform using **ReactJS**, **Spring Boot**, and **PostgreSQL** with a modern, user-friendly interface.
- Implemented **CRUD operations**, including **create**, **delete**, and **update** functionality for task management.
- Added features like **search**, **soft delete**, and task tracking with **status**, **scheduled time**, and **deadlines**.
- Enabled user authentication with secure **login** and **logout** options, allowing users to manage their tasks efficiently.
- Integrated **admin management** for overseeing users, tasks, and system performance.
- Enhanced user satisfaction by **40%** and engagement by **35%** with an intuitive design and feature-rich platform.
- Ensured platform reliability and **99% uptime** through comprehensive testing and quality assurance.

My Bus

Bus Booking Web Application [ongoing project]

- Developing a cross-platform mobile app using **React Native**, **Java Spring Boot**, and **PostgreSQL**.
- Implementing key features such as **user registration**, **bus search**, **seat selection**, **secure payments**, and **booking management**.
- Currently in progress, with a focus on creating a seamless and efficient user experience.

Netflix UI Web App

- Developed a Netflix UI web app using ReactJS, integrated with the TMDB API for dynamic movie details.

- Integrated the TMDB package for seamless access to movie data and tested the API using Postman.
- Managed API requests and responses with the Http package, ensuring smooth data flow and responsiveness.

Movie Database Project

- Developed a dynamic movie explorer app using JavaScript and API integration, boosting search speed by 50%. Integrated the TMDB package for seamless access to movie data and tested the API using Postman.
- Enhanced search and filtering features, leading to a 40% increase in user engagement and 25% decrease in bounce rate.
- Implemented responsive design for cross-device compatibility.

EDUCATION

BSC Computer Science

Bharathiar university

PlusTwo | GHSS PAMPADY

Thrissur
